

HSFS Huinay Scientific Field Station

RESEARCH REQUEST FORM

Principal Investigator

Name (Last)	(First)	Mailing Address (street, city, postal, zip, country)
Position / Institution	Email	
Phone and Fax numbers		Duration of Stay (from-to)

Accommodation

(please state the number of persons for each requested room*)

Apartment 1 (max.3 Persons)	Bunk-bed room 2 (max. 2 Pers.)
Apartment 2 (max.3 Persons)	Bunk-bed room 3 (max. 2 Pers.)
Apartment 3 (max.3 Persons)	Bunk-bed room 4 (max. 2 Pers.)
Bunk-bed room 1 (max. 2 Pers.)	Bunk-bed room 5 (max. 2 Pers.)

*Please note: With logistic support only bunkbed rooms available! Bottle-necks in summer may require room sharing.

Research Project

Title of project:

State a brief description of the planned research project and interests:

Please attach curriculum vitae including recent publications.

Research Requirements

Please indicate space requirements (office-, lab- and tank-space):

Please list essential equipment that you will need at the station (and indicate which parts you could bring with you):

If you are unsure what we can provide, please list your optimum needs and the HSFS staff will contact you for details.

Chemicals

If you need special chemicals besides denaturalized alcohol and formalin, please specify:

Note: Since possibilities of hazardous chemicals treatment in southern Chile are very restricted and expensive, the production of toxic waste has to be avoided as far as possible. If you bring hazardous chemicals this has to be announced. Proper vessels and labelling is required! Highly toxic chemicals are not allowed. All chemicals brought to the station and resulting waste have to be recycled back by the researcher. Radioactive material is not allowed at HSFS!

Animal Care

Will you need to sample organisms for your research project? Yes No

Please specify the type and quantity of organisms you are planning to collect/preserve and briefly explain the necessity for this quantity. Sampling for others than the announced projects (e.g. for colleagues) is not encouraged and has to be applied for. In Chile sampling of organisms requires a sampling permit. The station has a general sampling permit for benthic inventories. Please contact the director of HFSF for details.

Species (or taxon/habitat)	Number of Specimens	These specimens (quantity) are required for:

Are these specimen protected under any law? Yes No

For information on Chilean laws and regulations please contact "Subsecretaria de Pesca" and "Sernapesca"

Do you need a CITES permission? Yes No

Do you need samples for molecular work? Yes No

If you want to take samples out of the country, that could be used for molecular work you must sign the "Statement of no commercial exploitation of biological material".

SCUBA-Diving

Please state an overview of planned number and dates of dives, number of divers and special requirements:

Date of dive	Number of Divers	Purpose of dive

Tidal amplitudes (up to 7,5 m) and, depending on the site´s tidal currents can be a concern. For information on the tides in the fjord Comau please visit: http://www.shoa.cl/servicios/oceano/est_marea.html
 If you are unsure what we can provide, please list your optimum needs and the HSFS staff will contact you for details. Please note that everyone who wants to dive at HSFS has to read the diving instructions carefully, fill out the "Application and Registration DIVING" form and to sign the "Declaration of self-responsibility DIVING". **Sport diving at HSFS is not permitted!**

Additional Researchers

Please list the names, positions and dates of arrival and departure of every additional researcher you will be responsible for during your stay at HSFS:

Name		Position / Institution	Date of	
Last	First		arrival	departure
